INNOVATION FROM ASCENDOR LIFTTECHNIK

The space-saving solution for low travel heights up to 1,4m.

The tried and tested rack and pinion drive provides highest reliability and lifts you up quickly. Aluminum and stainless steel guarantee years of pleasure with your lift. As usual the lift is controlled by radio remotes. The safety lock of the door is connected to the control system of the lift. Thanks to the foldable platform the lift has only minimum space requirements.

CONVINCES WITH TECHNIC AND DESIGN

ADVANTAGES

- ✓ for indoor and outdoor use
- ✓ foldable platform
- ✓ smooth travel
- ✓ extremely space saving
- ✓ no pit required
- ✓ reusable
- ✓ simple installation
